
Weekly Advisory Team Update

The Advisory Team and Council recognize that July brought a great deal of information. While we are still in the initial stages of this work, we remain committed to keeping the UNITY congregation informed with clarity and transparency.

We also recognize our Pastors and Staff have carried a heavy load for many months. UNITY is a large, active congregation, and it can be easy to take for granted the care, energy, and leadership this gifted ministry team offers on our behalf. At your next opportunity, please share your gratitude with them.

This weekend, we share that the Council has approved bringing an Interim Senior/Lead Pastor to UNITY. This dedicated role requires specific training, experience, and gifts in congregational leadership during times of transition. Responsibilities will include working with our Call Team to explore UNITY's organizational structure. We are in the initial stages of collaborating with Bishop Paul Erickson and the Greater Milwaukee ELCA Synod team to identify someone compatible with UNITY, and we will share more as the process moves forward.

In Council news, Bill Rooney has accepted the nomination to serve as Chair of the Servant Ministries Committee. We are grateful for his willingness to step into this important leadership role. Bill's nomination will be presented for a formal vote at our next Annual Meeting. We wanted the congregation to be aware of this valuable addition to Council.

As UNITY continues to discern the path forward for our pastoral model, we believe we are stronger together. We need you to stay involved, thank our Pastors and Staff for all they do, and continue offering patience and prayers during this season.

As we move forward, please feel free to reach out to any member of the Advisory Team. We are here to listen, clarify, and walk alongside you as we navigate this next chapter together. Thank you for your continued care, patience, and prayers.

If you have questions or thoughts to share, please reach out to a member of the Advisory Team:
